## Dream of a Matter

The piece Dream of a Matter (German title: "Traum einer Sache") is a reappraisal of the political and social rebellion of the 68 generation, strongly inspired by the symbolic figures of the revolutionary movement of the time.

This theater production seeks the memory of what happened over 50 years ago in the current reality of life. The "modern age" of an individualized and increasingly virtual world explores the poetic dimension of the revolutionary moment: Body Revolution - Revolution Body.

A production with expressive body theater, specially composed live music, projections, stilts, elements of the Butoh dance, pyrotechnic effects and a final fire choreography.

Audience capacity: 2.000 people / playing time approx. 70 minutes

*"We have to become strong without ever losing our tenderness."*

*"Above all, be able to feel deeply every injustice against every person in every place in the world, always. That is the quality of a revolutionary."*

*"To do something, you have to love it very much. To love something very much, you have to believe in it to the point of madness."*

*"Let's be realistic: Try the impossible."*
